

Through-Wall Air Conditioner

Through-Wall Air Conditoner

Wall air conditioners, also known as through-the-wall or in-wall air conditioners, are designed to be a long lasting fixture. These 12,000 Btu air conditioners are mounted into a hole in the wall as a permanent installation.

These are a replacement for old Fujitsu, General, LG etc, window units using R22 and R407c refrigerants.

Features:

- Meets EN14511 standard & EU commision regulation 206/2012.
- Proven well-tested designs.
- LED display and remote control.
- Low noise.
- Suitable for areas up to 32 m².
- R32 Refrigerant.

| Part Code | Description | Cool Capacity Btu / kW | Watts | Amps | Air Flow Volume | EER | dB(A) sound power level |
