

JAVAC

CR2-40 Torr Gauge

The Javac CR2-40 Mbar analogue vacuum gauge is barometrically compensated capsule dial gauge, which measure total pressures. It is normally used for larger systems where evacuation is conducted over an extended period and pressure rise test is required, before refrigerant charging.

Specification:

- Javac absolute vacuum gauge
- Range 0-40Torr /50mbar
- 100mm Diameter
- Stainless Steel Construction
- 1/4 " Flare Connection
- Accuracy: Class 2
- Blowout Plug for over pressure protection

Part Number: CR2-40

Brass plug also available as a spare.
