

Technical data sheet

AdvancedGel CC

Condenser Cleaner

SPECIAL FEATURES

Cleans even the most stubborn baked-on deposits

Leaves coils clean and visibly brighter

Safe to use on aluminium or copper coils

DIRECTIONS OF USE

Each Condenser Cleaner Gel pouch is designed to make 8L of usable product. The easiest way to do this is to pour the entire gel pouch into the bottom of our HydroSprayer and then fill with water up to the 8L mark. Alternatively, the product can be mixed in smaller volumes, using 1 part product to 15 parts water. Once the water is added, the product will be ready to use in 5 minutes.

To start using the Condenser Cleaner Gel for condenser cleaning, turn off the unit and isolate the electrics. Apply the diluted Condenser Cleaner Gel, with a low pressure sprayer, set on a coarse spray pattern, working from the bottom, across and up. Ensure the coil is soaked and then allow the product to work for 10 minutes. After 10 minutes, thoroughly rinse the coil with fresh water.

The cleaning process is more effective if the condenser is still warm.

Store upright in a cool, dry place.

Disposal

Product: Incineration on land

Container: Clean with water. Dispose of as normal industrial waste. Do not reuse empty container.

As air is pulled through a condenser coil, small amounts of dirt deposit on the fins. Left untreated, a layer of dirt builds up over time – acting as an insulating blanket and restricting air flow. This prevents effective heat transfer, so the system has to work harder to dissipate the heat. Energy consumption increases, and the life of the system may be shortened. Avoid all these problems by using **AdvancedGel CC**, with its powerful cleaning and brightening action.

PRODUCT SPECIFICATION

Name	AdvancedGel CC
Product Code	S010457GB
Packing Quantity	5 x 490ml
Packing Size (L x H x D cm)	22cm x 25cm x 12cm
Shipping Weight (kg)	3.03kg
Shipping Volume (m ³)	0.01 m ³
Soils	Smoke films, dust, airbourne debris

AdvancedGel CC Condensate Cleaner Gel

Danger UN3264

Contains ORTHOPHOSPHORIC ACID

H314: Causes severe skin burns and eye damage. P260: Do not breathe spray. P280: Wear protective clothing, eye protection, face protection. P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
